

## **NBRC23GNH10 Theatre UP CM RFP Addendum**

Please note the following addendums to the RFP for Construction Management Services.

- The Masonic Temple project will not have any elements of multi-family construction so specific experience in this area are not pertinent to the qualifications.
- The project will not be pursuing Preservation Tax credits, though experience with historic buildings is important to the firm's qualifications.
- The existing building has a relatively new roof, so roofing of occupied buildings is not pertinent to the firm's qualifications.
- The Owner has a couple of pre-qualified Subcontractors that they would like to suggest for consideration, but there are no requirements to use Owner's contractors.
